

As we gear up for the new year, we wanted to take a look back at how far we've come in 2018 as a community. We kicked off the year with a webinar on *Big Data Meets Smart Data* and most recently wrapped up the second annual *East Coast Executive Roundtable* in November.

Last year, we talked about the practical business application of AI/Machine Learning, Blockchain/IOT, and Big Data, with a cross-section of speakers from Fortune 500's, cutting-edge start ups, and VC's — giving the broadest perspective possible on what is going on in each of these areas.

In 2019, we will be laser focused on the improvement and evolution of online asset exchange.

Ready to **Create, Empower, Move and Connect!**
Let's drive this industry into the future!
